

2.3.1 and 2.3.2 Define a Named Range and Name a Table

Now that you've completed this lecture, you should be able to define named ranges and name tables.

Try the techniques on your own using the following steps

1. Open the workbook named 2312 provided as a resource with this TIY. Select the cells from A3 to A11 and name the range as 'Categories'.
2. Delete the 'Plan' named range.
3. Modify the 'NewSet' named range so that it encompasses the cell range from B4 to G7 in the Marketing Plan Budget worksheet.
4. Define the cell range from A3 to G11 as a table named 'Overall_Expenditure'.
