2.1.2 Fill Cells by using Auto Fill

Now that you've completed this lecture, you should be able to use AutoFill to automatically fill data series and patterns.

Try the techniques on your own using the following steps

1. Open the workbook named 212 provided as a resource with this TIY. In the Customers worksheet, in column G, use Flash Fill to create and fill a pattern for First Name, Surname and Address3.

2. Based on the first three Customer Numbers provided, use AutoFill to complete the Customer Numbers for the next eleven customers.
